

## Pierre Debrouetelle's Zodiac 1936

## Amos Burg, Buzz Holstrom & "Charlie" 1938

The first known use of an inflatable raft on the Colorado River System was by Amos Burg who used a custom built an eighty-three-pound rubber raft named "Charlie." In 1938 Buzz Holmstrom and Amos Burg duplicated Buzz's 1937 solo trip down the Green and Colorado Rivers to make movies of Burg's previous adventure. {Photo courtesy of University of Utah- J Willard Marriott Library}
