

Summary of Telephone call on Lake Powell Pipeline Project—FERC No. 12966

June 25<sup>th</sup>, 2018

Between:

FERC

Jim Fargo, Project Manager, Lake Power Pipeline

Outside Parties:

Alice Walker, McElroy, Meyer, Walker & Condon, P.C.

Summary

On June 25<sup>th</sup>, 2018, I called Alice Walker to discuss the status of the Lake Powell Pipeline Project, FERC No. 12966 and her June 19, 2008, letter on behalf of the Kaibab Band of Paiute Indians ("Kaibab Tribe"). The letter inquired about the participation of the Kaibab Tribe as a cooperating agency for the environmental impact statement for the Lake Powell Pipeline Project as part of the integrated licensing proceeding before the Federal Energy Regulatory Commission.

We discussed the applicant's request for a declaratory order by the Commission that defines the Commission's jurisdiction over the proposed project. I said that once the Commission acts on the request Commission staff will resume processing the application and we will be contacting the Kaibab Tribe and the other cooperating agencies with both a schedule and a proposed plan for the cooperators participation in drafting the Environmental Impact Statement.
